

MEASUREMENT PROTOCOL

Labelled probes

attacks by phrasing,
benign traffic, hard
negatives

Baseline pass

shipped settings, both
channels, repeated
guard calls

Weight search

one signal at a time,
then the joint space

Added rules

patterns for phrasings
the shipped rules
miss

Verifier

recomputes every
number from the raw
files

fails closed on
disagreement

same probes, configuration restored between phases

Ground truth carries two axes: the
taxonomy label, and whether the
text is prompt shaped.
